

LIMITED SHINGLE WARRANTY

This warranty is only valid when PABCO® shingles are purchased and applied in the United States or Canada. This warranty specifically warrants that PABCO® shingles are free from manufacturing defects that adversely affect their performance. The major warranty provisions and limitations described herein are shown in the attached Reference Tables.

• LIMITED LIFETIME WARRANTY:

For designated products, the Limited Lifetime Warranty is offered to the original homeowner on single family residential structures only. The Limited Lifetime Warranty may be transferred from the original homeowner to the first subsequent homeowner providing the transfer occurs during the non-prorated warranty period and PABCO® Roofing Products receives notice of the transfer within 60 days from change in ownership. Written notification must be sent to PABCO® Roofing Products, Limited Lifetime Warranty Transfer, 1718 Thorne Road, Tacoma, WA 98421 and must include: purchasing homeowner name, address where shingles are installed, date of installation, product and color installed, and date of transfer of ownership. Upon any change in ownership after this first transfer, or if PABCO® Roofing Products is not notified of such transfer as described above, the Limited Lifetime Warranty coverage ceases, and reverts to prorated coverage as described below. The Limited Lifetime Warranty is prorated in the same manner as the 50 year limited warranty except prorating ends at year 40. After 40 years, the number of months remaining on warranty is held at 120 (that is, 600 months initial - 480 months of use).

For purposes of this warranty, the original homeowner is defined as:

- The original purchaser/occupier of the dwelling, or
- The purchaser/occupier at the time of PABCO® shingle installation.

• TRANSFERABILITY:

Shingles with the Limited Lifetime Warranty installed on single family residential structures may be transferred one time (to the first subsequent individual homeowner with proper notification as described above). A Limited Lifetime Warranty transferred after the first subsequent transfer reverts to a 30 year, 40 year, or 50 year warranty period (see Reference Tables for details). Single family residential structures do not include commercial structures of any kind, apartments, townhomes, condominiums or other structures where multiple dwelling units are covered by a common roof.

• WARRANTY FOR ALL OTHER STRUCTURES:

The Limited Lifetime Warranty is only applicable to single family residential structures. The warranty lengths for all other structures are shown in Reference Table 2 and range from 30 years to 50 years (excluding the special limited coverage detailed below under the terms of the Non-Ventilated Roof Deck Warranty). These structures include, but are not limited to, non-residential structures of any kind, apartments, town homes, condominiums or other structures where multiple dwelling units are covered by a common roof.

• WARRANTY LIMITS:

Excluding "Non-Ventilated Roof Decks", the warranty term for PABCO® shingles varies from 30 years to a Limited Lifetime depending on the type of shingle purchased (see Reference Tables). PABCO®'s warranty obligation to the owner ends when:

1. The shingles reach the end of their warranted life as set forth in the Reference Tables.
2. The then-current owner re-roofs with another product.
3. A claim settlement has been reached which includes and requires a release of all future liabilities.

• NON-VENTILATED ROOF DECK WARRANTY LIMIT:

When PABCO® shingles have been installed over roof deck systems for which ventilation is insufficient (not up to FHA Minimum Property Standard) or absent, warranty protection is limited to 10 years of prorated coverage for replacement of shingles which exhibit a manufacturing defect.

• NON-PRORATED COVERAGE:

The time period for non-prorated protection against manufacturing defects that adversely affect shingle performance can run up to 15 years, depending on the product and application. See the Reference Tables (and "Non-Ventilated Roof Deck" above) for product specific details.

This non-prorated protection period includes replacement product (if available) and reasonable installation costs to repair, replace, or recover the roof, as PABCO® determines, after a formal claim has been processed and accepted. Reasonable tear-off and disposal costs may be covered for certain products (see Reference Tables for details). PABCO® reserves the right to substitute product of similar quality and color if original product is not available. Items not covered under this limited warranty include metal work, flashing, or other related work. After the "Non-Prorated Warranty Coverage" expires, PABCO® will base the settlement on the number of months of use that the shingles have performed through the date of the filing of the claim, and reduce the amount of payment proportionally for the balance of the warranty. The Prorated Coverage is described below.

• PRORATED COVERAGE:

Protection during the balance of the warranty against manufacturing defects that adversely affect shingle performance is known as "Prorated Coverage". It is limited to the dollar value shown in the Reference Tables for that shingle (reduced by the months of use); OR the cost to repair, replace or recover the defective shingles as determined after a formal claim has been processed and accepted, whichever is less. PABCO®, at their sole discretion, reserves the right to provide replacement shingles as an alternative to paying the cost to repair or replace defective shingles.

Example of a Prorated Warranty Value Calculation:

(45 squares of PABCO® SG-30®, claim settled, 9 years and 3 months after installation.)

A = number of affected squares = 45 squares

B = initial warranty value, from Reference Tables = \$40 initial value

C = number of months remaining on warranty = 360 months - 111 months (9 years +3 months) = 249 months

D = total length of warranty (in months) = 360 months

Prorated Warranty Value = (A x B x C) / D = (45 x 40 x 249) / 360 = \$1,245.00

• SCOTCHGARD™ ALGAE RESISTANT ROOFING SYSTEM AND ALGAE RESISTANT (AR) SHINGLES:

PABCO® manufactures and makes available (on a regional basis) different types of shingles with the Scotchgard™ Algae Resistant Roofing System and Algae Resistant (AR) Shingles. Shingles designated and sold with the Scotchgard™ Algae Resistant Roofing System are warranted to remain free of algae growth for 20 years.

Shingles designated and sold as Algae Resistant (AR) are warranted to remain free from algae growth for 10 years.

If algae growth does occur during the designated coverage period, PABCO® reserves the right to clean the algae from the shingles rather than repairing or replacing them. This coverage is limited to algae growth and does not apply to moss, mold, or any other staining determined not to be algae.

Featuring

Algae Resistant Roofing System

Scotchgard™ Algae Resistant Roofing System is not available in all markets.

• WIND WARRANTY PROTECTION:

The Reference Tables detail the maximum wind velocity and length of coverage for the Wind Warranty protection for each shingle product. The high wind warranty is available for new construction, re-roof with complete tear-off, or roof-over applications (must have prior approval from PABCO® Roofing Products). Eligible shingles must be properly installed with 6 nails, PABCO® Universal Starter at the rakes and eaves, and Paramount® Starter at the eaves (when required). See the Application Instructions for the product being installed for additional details. This Wind Warranty protection does not apply to shingles which have not yet had the time and temperature exposure needed for Thermal Sealing (as defined below).

Thermal Sealing of Self-Sealing Shingles Defined: PABCO® shingles contain self-sealing asphalt strips that must be subjected to direct warm sunlight to reach a temperature that activates the sealant strip before thermal sealing will occur. When shingles are installed during cool weather conditions, they may not seal until the temperature is high enough and lasts long enough to develop sealing conditions. Shingles applied in winter months which do not receive direct sunlight do not reach adequate surface temperatures and may not seal. This is the nature of self-sealing shingles and failure to seal under these conditions is not a manufacturing defect.

• WHAT IS NOT COVERED:

PABCO® is not liable under this limited shingle warranty due to any roof failure other than those caused by manufacturing defects in the shingles. PABCO® is not responsible for application, performance, or the consequences of failures of the full roof system unless the failure is resulting from a manufacturing defect in the shingle. While this warranty describes certain benefits available to the owner, it is not an assurance that the shingles will remain serviceable for the length of the entire warranty period. In addition, after the shingles leave the manufacturing facility, they may be subjected to conditions and handling that affects their performance which is beyond PABCO®'s control. This warranty does not cover the following conditions that may affect product performance but are not related to manufacturing defects including, but not limited to:

1. Violent, unusual weather conditions or acts of God such as, but not limited to, hail storms, lightning, or winds greater than the wind limits stated for each shingle product in the Reference Tables.
2. Shingles applied with fewer than 4 nails in the proper location on the shingle (5 nails for Cascade™, Paramount® and Paramount Advantage®) applied and exposed to normal wind areas or shingles applied with fewer than 6 nails in the proper location on the shingle as indicated on the product packaging in areas where local knowledge indicates exposure to high winds is likely to occur.
3. Damage caused by structural changes, alterations, additions, settlement, distortion, failure, or cracking of roof deck, walls, or foundation of a building or by the installation and penetration of the shingle system with equipment such as signs or air-conditioning equipment to the structure. This includes damage to the shingles caused by coating, painting, or inappropriate cleaning of the shingles.

4. Defects in, or failure of, or damage caused by materials used as a roofing base over which the shingles are applied.
5. Damage caused by traffic of any kind on your roof.
6. Shingles installed on "Geodesic Dome" construction are not warranted nor approved under any circumstances.
7. Appearance-related issues where there is no failure of the performance of the shingles including, but not limited to, surface cracks, fissures, granule loss or coloration.

• PABCO® reserves the right to discontinue or modify any of its shingle products, including the color of the shingles, without notice to the present owner and shall not be liable for any such discontinuance or modification.

• **DISCLAIMER OF WARRANTIES:**

PABCO® WARRANTS THAT ON THE DATE THE SHINGLES ARE MANUFACTURED AND FOR SHINGLES APPLIED ON OR AFTER JANUARY 12, 2012, THEY WILL MEET PABCO®'S STANDARD SPECIFICATIONS FOR THE RESPECTIVE SHINGLE AND WILL BE FREE FROM DEFECTS IN MATERIAL AND MANUFACTURE SUBJECT TO THE LIMITATIONS AND EXCLUSIONS DESCRIBED WITHIN THIS LIMITED SHINGLE WARRANTY DOCUMENT. THE WARRANTY CONTAINED IN THE PRECEDING SENTENCE IS THE EXCLUSIVE WARRANTY GIVEN BY PABCO® AND SUPERSEDES ANY PRIOR, CONTRARY OR ADDITIONAL REPRESENTATIONS, WHETHER ORAL OR WRITTEN. IN ADDITION, THIS LIMITED WARRANTY REPLACES AND SUPERCEDES ALL PRIOR WARRANTIES. PABCO® HEREBY DISCLAIMS AND EXCLUDES ALL OTHER WARRANTIES – WHETHER EXPRESS, IMPLIED OR STATUTORY – INCLUDING ANY WARRANTY OF MERCHANTABILITY, ANY WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE, AND ANY IMPLIED WARRANTIES OTHERWISE ARISING FROM COURSE OF DEALING OR USAGE OF TRADE.

• LIMITATION ON LIABILITY IN NO EVENT SHALL PABCO® ROOFING PRODUCTS BE LIABLE FOR CONSEQUENTIAL, INCIDENTAL, SPECIAL OR PUNITIVE DAMAGES OF ANY KIND, INCLUDING ANY DAMAGE TO THE BUILDING, ITS CONTENTS OR ANY PERSONS THEREIN.

• **THE CLAIM PROCESS:**

In order to initiate a claim against this warranty, PABCO® must be notified within 30 days of discovery of a claimed manufacturing defect, prior to the expiration of the warranty. The claimant may call PABCO® at 1.800.426.9762 or 253.272.0374 so that a claim packet can be forwarded to them. PABCO® may also be reached at www.pabcoroofing.com or send a letter addressed to PABCO® Roofing Products, Warranty Claims, 1718 Thorne Road, Tacoma, WA 98421. When a claim packet is submitted, the homeowner's section must be filled out completely, signed, and dated. The claimant must provide proof of purchase, 3 full shingles that clearly demonstrate the claimed defect, and provide photos which show the scope of the complaint. All this required claim information is the responsibility of the claimant, and is to be forwarded to the address above at the cost of the claimant before the warranty has expired as described above in "Warranty Limits". Any and all photos, samples, and/or documents provided become the property of PABCO® and may not be returned. Once received, the complaint will be analyzed according to the terms and limitations described in this warranty and PABCO® will formally respond to the claimant in 45 days.

• **WARRANTY REGISTRATION:**

Homeowners are not required to register their Limited Shingle Warranty. If you wish to register your warranty, provide purchaser's name, phone number, email address, address where shingles are installed, date of installation and product and color installed to:

PABCO® Roofing Products, Warranty Registration, 1718 Thorne Road, Tacoma, WA 98421.
